HOUSEKEEPING RULES

This session will be entirely recorded and published on the NGIoT channels.

All participants except speakers and moderators will be muted by default.

If you are not a speaker, please turn off your video.

Feel free to post your questions in the Zoom chat.

If you would like to speak, raise your hand and wait for the moderator to give you the floor.

If you have any technical issue, please contact the Zoom Host on the chat or send us and e-mail at: info@ngiot.eu

EUROPEAN LANDSCAPE

We need your input!

European front runners in Edge-IoT

- **Network operators** are front-runners in edge computing investments
- Europe has strong players in **hardware and service providers**. With accelerators "champions" like Eurotech, Gemalto, Software AG, SAP, Bosch, Deutsche Telekom, Telit, Schneider Electric, etc.
- Moving from **use cases towards platform-centric** environments leaders are non-european AWS, Microsoft

KEY EVENT NGIoT EVENT

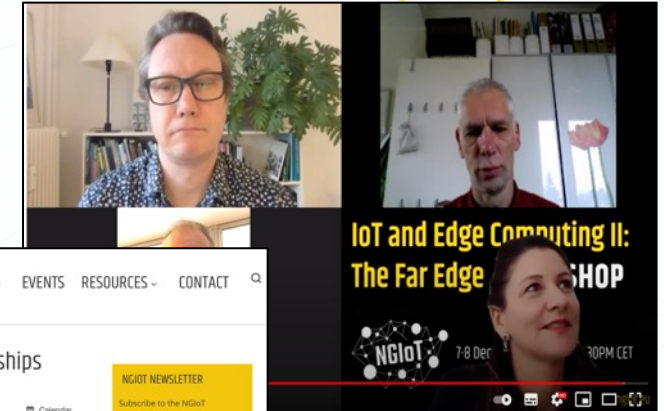

The purpose of the workshop is to take stock and consolidate on the key messages from the previous workshops on IoT and Edge computing, organised by the Horizon 2020 project NGIoT, held on 11 September and 7-8 December 2020.

NGIoT invites European industry and the public sector to reflect on the results from these workshops and convey their position or provide a spontaneous feedback on the role of Edge Computing as they experience it in their relevant sectors. Feedback could be provided orally or through quote and/or expression of interest in supporting the future strategic discussion on Edge Computing at the European level.

We welcome your vision

Guide to sustainable, digital transformation

1. Focus on data
2. Build with interfaces (APIs)
3. Ensure a minimum of interoperability
4. Be open towards technology choices
5. Prioritise partnerships and ecosystem
6. Be conscious about maturity and complexity
7. Start small, think big
